In April 2006, Infinity Ward released Call of Duty 2 Radiant, which allows a player to create their own multiplayer or single-player maps. The mapmaker includes Maya plug-in support, an effects editor, and an asset manager that allows custom models to be made and imported into the game, as well as custom effects.[14]

Campaign [ edit ]

Call of Duty 2 contains three individual campaigns, fought in the roles of four World War II soldiers, for a total of 27 missions. The game has four difficulty levels: Easy, Regular, Hardened, and Veteran.

The player controls Private Vasili Koslov of the 13th Guards Rifle Division, initially involved in the defense of Moscow from the advancing German troops. The next level involves the destruction of a German stronghold in Stalingrad during September 1942. The next objective involves battling for strongholds throughout Stalingrad throughout December 1942, including re-connecting cut telephone wires and re-capturing the rail-yard and train-station. The final mission takes place during the final Soviet offensive in Stalingrad in January 1943, which involves the re-capture and defense of city blocks and Stalingrad city hall.

On April 7, 2005, Activision announced that Infinity Ward was developing Call of Duty 2, set for release in fall 2005 for PC. It had been speculated that Infinity Ward was developing the sequel at the same time as Gray Matter Studios developed Call of Duty: United Offensive. Infinity Ward president Grant Collier said:
