What is the difference between odds and probability? - FAQ 1466

support : faq : probability-vs-odds

To convert from a probability to odds, divide the probability by one minus that probability. So if the probability is 10% or 0.10, then the odds are $\frac{0.1}{0.9}$ or $\frac{1}{9}$ or 0.111. To convert from odds to a probability, divide the odds by one plus the odds.
