<p&gt;1972, according to Magnet&#39;s Andrew Earles, was &quot;year zero&quot
; for power pop. Developments from that year included 💰 the emergence o
f Big Star and the Raspberries, the release of Todd Rundgren's Something/Any
thing?, and the recording of the Flamin' 💰 Groovies' "Shak
e Some Action&guot;; additionally, many garage bands had stopped emulating the R
olling Stones.[10] Chabon additionally credited the Raspberries, Badfinger, &#12
8176; Big Star, and Rundgren's "Couldn't I Just Tell You" and
" I Saw the Light" with " inventing" the genre.[7] On a &#128
176; television performance from 1978, Rundgren introduced "Couldn't I
Just Tell You" as a part of " the latest musical trend, power &#128176
; pop."[31] Lester called the studio recording of the song a "masterc
lass in compression" and said that Rundgren "staked his claim &#128176
 to powerpop immortality [and] set the whole ball rolling".[9]</p&gt;
<p&gt;In the 1980s and 1990s, power pop continued as a commercially modest &#
128176; genre with artists such as Redd Kross and the Spongetones. The later re
cords of XTC also became a touchstone for 💰 bands such as Jellyfish and
the Apples in Stereo,[41] while Big Star developed an avid cult following among
members of 💰 later bands like R.E.M. and the Replacements who expresse
d esteem for the group's work. Many bands who were primarily influenced &#12
8176; by Big Star blended power pop with the ethos and sounds of alternative ro
ck. AllMusic cited Teenage Fanclub, Material Issue, 💰 and the Posies as
"critical and cult favorites".[3]</p&qt;
