Roblox gerou uma receita bruta de US\$ 2,7 bilhões em 2024, representando um aumento de 25% em relação ao ano anterior. Essa cifra inclui um aumento de 107% nas receitas em 2024.

Mas como essa plataforma gera dinheiro? O modelo de negócios da Roblox gira em torno da geração de receitas através de transações de Robux. Isso inclui quase tudo, desde itens de vestuário até passes de jogo, trocas e muito mais.

A Roblox retém 30% de todas as transações do Robux. No entanto, é importante notar que eles não retiram dinheiro dos desenvolvedores para outras formas de geração de receitas.

Se você quiser ganhar dinheiro na plataforma Roblox, poderá fazê-lo criando um jogo. Nesse caso, a Roblox ganhará com suas transações e seu jogo.

Então, como um desenvolvedor Roblox, seu foco deve estar na criação de jogos e conteúdo de alta qualidade para atrair jogadores e realizar transações do Robux. É uma medida que a plataforma cresce e os usuários gastam mais, provável que os desenvolvedores também vejam seus retornos.
