<p>Terrible game.</p>
<p></p>
<p></p>
<p></p>
<p></p>
<p>I just bought this, as £ , I was looking for a game that is exactly thi
s premise. Alas, when I found this game, I bought it £ , and I was extremely dis
appointed. Just loading up the game took forever, and I kept having to close and
reopen £ , it. When it finally opened, it took 17 minutes just to do that. Yeah
. Now it's not like I have £ , a terrible laptop, my laptop is really good a
nd I've never had any issues with such a thing. Then, upon £ , opening the g
ame, I couldn't look around because the default settings were set to ultra.
For the record, I don't £ , really have an issue with game devs doing this,
but it leaves a bitter taste in your mouth. I had £ , to set the quality to very
low and even then it was still so laggy. It was 2 fps at £ , the most (like, no) Tj T* BT /P

so £ , it was quite literally just pixels. The game was also very repetitive, s
o even if you have a NASA super-computer £ , you will get bored of this really q
uickly. I do not suggest this to anyone, no matter how enticing it £ , looks. It
was terrible and so incredibly frustrating; especially because I kept having to
meddle with the settings and make £ , the game actually playable (spoiler alert) Tj T* BT
