Having a plan while trading is very important. Assuming you#39;ll be one of the profitable ones, it#39;ll likely take <span> six months to a year</span> trading/practicing every day until you are consistent enough to pull a regular income from the market. If you make money in the first couple months it#39;s likely pure luck.

Many people put in multiple years before breaking into consistent (or even any) profitability. It takes <span> at least a year</span> to consistently make money from day trading or swing trading, if working at it full-time or with a mentor, and only working one (maybe two) strategies. Six months is the quickest; most take longer.
