Escanteios asiáticos  
Escanteios asiáticos To fully exploit the constrained width, avoid loading the neighbouring structures and straddle shared utilities running under the site, the house was constructed using a lightweight steel frame on a piled slab. The steelwork was prefabricated as a series of portal frames that were craned down the alley and site-welded together. Given that every inch in such a narrow space was valuable we chose to fully weld the connections and express the frame internally, even utilising the depth of the steels to maximise the space.  
Escanteios asiáticos Alongside the painted steel a simple palette of spruce plywood, douglas fir joists, terrazzo and cork flooring enriches the interior. Externally the timber framed walls are clad in handmade pewter glazed brick slips with a patina that reflects the changing light of the sky. Both the simply landscaped and planted rear courtyard and the garden in front of the house enhance the feeling of space in this small dwelling.  
Escanteios asiáticos This self-build project had a long gestation, fitted in around professional and family life. The design and construction were developed as time and money allowed so whilst planning consent was given in January 2014 and the ground works commenced in the spring of 2024, the building was not completed until August 2024. We worked closely with friend and joiner Michael Tye to lead a small team of local subcontractors and employed specialist fabricators for certain key packages as well as undertaking a fair amount of the work ourselves.  
Escanteios asiáticos The result is a unique and highly crafted home that is a testament to the commitment, effort and support of many people. By replacing a narrow disused alley with this comfortable small home we hope to have enhanced the streetscape we inhabit. As the building completes the terrace, so does the front garden - with the simple bin store, planting, level access and bike parking we aimed to keep it open and reinforce the pavement line without making a hard boundary. The development highlights the viability, both economically and sp
