<p></p><p>So, I got a soft blob-like thing, and I was tossing
with it in a prototype for a very long 🗝 time. It turned out that it s
tough to invent something new. Finally, I got an idea of a fat cat 🗝 th
at likes to blow balloons. The name of the game is Puffy Cat, and I ll be glad i
f you play 🗝 it on Poki!</p>
<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins
, 225 sprites, 35 sound 🗝 fx, and plenty of fun! And we agreed with the
publisher to make two more games in the Puffy Cat 🗝 series with new ga
me mechanics and content.</p>
<p>What I like the most about Defold is that:</p>
<p>I use Defold IDE to make 🗝 levels, i.e. I have quite a few pre
-made game objects to construct a level. Every level is a collection with Ԅ
77; references to these game objects. All these levels linked to the parent col
lection as Defold s collection factories. It s an easy 🗝 way to make le
vels without any external editors like Tiled etc.</p>
<p>All I need to run a game from sources is 🗝 to download Defold
IDE and build/run a project.</p>
