Sequels are as much a part of horror as any other ge

re, so when Jim Vejvoda of IGN sat down \mathbb{E} with Jennifer Kent, the ques

tion of a "Babadook" sequel inevitably came up. Specifically, Vejvoda

asked Kent if she was afraid \mathbb{E} that the stand-alone gem would become di

minished by a "sequel factory," and if she'd have control over an

outside source \mathbb{E} making another movie. Fortunately, Kent confirmed that

she and the producers own the rights to any sequels, so they'd have \mathbb{E}

the ultimate say. On that note, she took the opportunity to shut down any sp

eculation we shouldn't expect "The \mathbb{E} Babadook 2." As sh

e explained, "The reason for that is I will never allow any sequel to be ma

de because \mathbb{E} it's not that kind of film."It seems like Kent always knew "The Babadook" wouldn't ha

ve a sequel, and for good \mathbb{E} reason. She went on to say, "It's

just not what the film's about. It would destroy the integrity of everything

\mathbb{E} we worked so hard to protect." That makes sense, as the film's

focus is specifically on the trauma of Emilia \mathbb{E} and Samuel, a story

that's now been told. A sequel would dull the underlining meaning of the mo

vie.

Sometimes, a movie \mathbb{E} with a purpose like "The Babadook"qu

ot; is fine standing on its own.
