One of the main ways that we work out how to calculate a percentage of a number is by converting the percentage to a decimal first.

In order to do this, we find 1% of the number by dividing it by 100%.

Once we've done that, we multiply our answer by the value of the percentage we're looking for.

How to Find a Percentage of a Number | Teaching Wiki - Twinkl

Percentage of a number using mental math - a free lesson

percent : percent_of_number_mental...

To find 1% of something (1/100 of something), divide by 100.

Remember how to divide by 100 mentally: Just move the decimal point two places to the left.

For example, 1% of 540 is 5.4. And 1% of 8.30 is 0.083.
